

Creating Art on your iPhone. *An Introduction to iPhoneography*

Instructor: Patricia Leeds

Using everyday snapshots, you will learn to create extraordinary images. This class is for everyone who wants to create imagery anywhere you are. You will have an art studio in your pocket. You will learn the basics in this class and be able to create contemporary digital photographic composites.

Maximum number of students is 6 for hands-on help.

- Color enhancement.
- Textures.
- Painterly effects.
- Using text in your imagery.
- Compositing.

What you will need to bring:

- iPhone and/or iPad. Models 5 or later.
- Charging cords.
- Basic knowledge of iPhone camera and iTunes app store needed.

Patricia Leeds is a Bay Area artist who uses the iPhone/iPad and various apps to create compelling imagery. She has won many awards and her work has been published and exhibited nationally. Recently she was awarded the Gold winner in photography from New York's "Artforward".

"I have been a commercial photographer for over 30 years. 7 years ago, I began my journey with mobile photography. Today I mostly create photographic imagery with my iPhone and iPad. The freedom to create imagery without the bulk of equipment has been a transforming experience for me and I hope it will be for you". www.patricialeedsart.com
